

Medi Guard Vaccine Refrigerators are suitable for storage of biological products, vaccines, drugs and reagents. Suitable for use in pharmacies, pharmaceutical factories, hospitals and medical clinics.

USB Data

Built in USB Data Logger.
Data can be traced and exported.

Single LED Display

High accuracy single
LED displays.

Temperature Control

High Precision
Temperature Control.

Security System.

Excellent alarm system that is equipped with a number of alarm functions including:

- High/low Temperature Alarm
- Door Ajar Alarm
- Power Failure Alarm
- Sensor Failure Alarm

Performance Data Cooling Curve.

Microcomputer Temperature Control.

A high precision microcomputer temperature control system with built-in control and alarm sensors allows user to have the utmost control of their unit and ensure products are kept at the best temperature possible.

Heated Door.

Equipped with a heated door, this refrigerator is perfect for product storage in warmer environments as there is no condensation on the outside of the unit.
