Vacc-Safe

Dual Compressor Refrigerator with Drawers VS516PD 516 Litre

Suitable for storing vaccines, medicines and laboratory products between 2°C and 8°C in pharmacies,hospitals, medical clinics and laboratories. Interactive 7" LCD Display with easily visible min/max temperatures and fridge operation status.

Dual Cooling System.

Two independent cooling systems ensure uninterrupted operation, even if one fails; Dual systems reduce individual load, extending overall lifespan.

Security Features.

With four variable security measures including NFC and fingerprint verification.

Heated Doors Stop Condensation Fog.

Reducing condensation enhances visibility, allowing you to keep doors closed while searching for stored items. This helps maintain the temperature inside and prevents unnecessary loss.

High Precision Temperature Control.

Temperature fluctuation within +/- 1ºC of the setpoint, ensuring contents are maintained well within 2-8 ºC requirements.

Sliding Drawer Design.

For easy access to contents and better storage visibility.
